Continuation of Attachment(s) 6). Other: Notice of Non Responsive Amendment.

Notice of Non-Responsive Amendment

The amendment filed on 6/24/04 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because Applicant received a restriction between multiple inventions (see paper no. 6) and elected to prosecute the claims directed to the invention of Group II (claims 1-4 & 6) directed to a method of performing dialysis on a post-operative patient that is suffering from acute kidney failure. Claims 5 & 7-9 were, and remain, withdrawn to non-elected inventions. Applicant received an office action on the merits with respect to the elected invention (see paper no. 10). New claims 10-35 are directed to the subject matter of non-elected invention Group III (treating patients in a heparin free method, see paper no. 6 for groupings). Applicant is not permitted to prosecute claims to a non-elected invention mid prosecution. Therefore, since no claims remain pending for the elected invention the amendment is non-responsive. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 10-35 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to

avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
